Report of Principal and School Improvement Council

Sterling School currently serves students from 4-year-old kindergarten through eighth grade. The test scores reported are based on the Sterling School enrollment in the 2007-2008 school year, grades three through seven from the Charles Townes Center, a center for highly gifted students. The kindergarten through 2nd grade program was added in the fall of 2008, as was an eighth grade to the Charles Townes Center. The Sterling School operates with one mission: to provide a differentiated, challenging education to meet the distinctive intellectual, social, and emotional needs of our students.

Sterling School has the highest expectations for our students. Our School Improvement Council and Faculty Planning Teams have worked together to develop goals, strategies, and evaluation measures of our comprehensive school improvement plan. A major program initiated in the 2007-2008 school year is the development and integration of leadership theme to the school, focusing on developing leadership traits, skills, and attributes across the school and across the curriculum.

Our goals align with district objectives, including raising the academic challenge and performance of students. We measure progress toward these goals by methods including evaluating student work and test scores, as well as analyzing parent, student, and teacher surveys. The Sterling School goals are as follows: 1) Student performance will improve in all subcategories on the Palmetto Achievement Test (PACT) to 100% Proficient and Advanced by 2011-2012; 2) All personnel will be identified as highly qualified and specialized by 2005-2006 and maintain 100% of this status until 2011-2012; 3) Students, Parents, and Teachers will be rated at an 85% overall approval rating on the state report card annually until 2011-2012.

Currently in our fifth year, the Sterling School continues to build and refine instructional units that meet or exceed state standards. Various techniques are used to enhance the learning process. Through the integration of multiple subjects, points of view, and cultures, students are encouraged to develop a deep understanding of topics and perspectives. Students at all grade levels have completed multiple units of integrated study and critical thinking. Students are also involved in extensive research, using technology to explore and present information. Students continue to exceed district and state benchmarks, while teachers constantly review student progress to improve program implementation and student achievement.
